

Abu Dhabi, Das Island

Abu Dhabi National Oil Company decided to extend the existing Das Island by some 17 ha. Das Island, situated 110 km off the coast of Abu Dhabi, is an important hub for the export of oil and gas.

Van Oord implemented the reclamation design and construction contract involving some 16 million m³ sand and Wicks compacted this reclaimed land.

Execution period: 2010 - 2011

U.A.E., Dubai, Pearl Jumeirah

Wicks executed soil improvement for the Pearl Jumeirah coastal development project in Dubai,

located west of Port Rashid. More than 10,000,000 m³ of reclamation soil has been compacted. The soil is compacted to increase the load-bearing capacity and to reduce residual settlement. Wicks deployed 2 vibrocompaction rigs and a surface compaction roller.

Execution period: 2010 - 2011
